WITNESS ACCOUNT

PLEASE DESCRIBE IN YOUR OWN WORDS WHAT HAPPENED AND INCLUDE IN YOUR ACCOUNT: WHAT YOU WERE THINKING ABOUT RIGHT BEFORE YOU NOTICED THE PHENOMENON; A DESCRIPTION OF THE PHENOMENON; YOUR ACTIONS AND REACTIONS BEFORE, DURING AND AFTER THE INCIDENT; HOW YOU LOST SIGHT OF THE PHENOMENON.

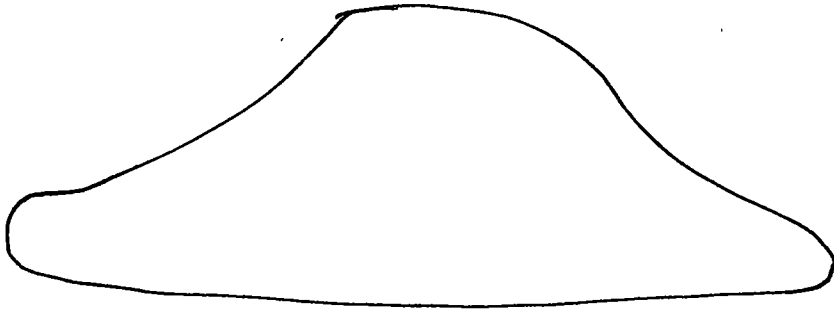

I and Patricia
 Santa Barbara, California were coming home
 from a dance at a small place north of
 Santa Barbara. It was a very black night
 with only faint starlight and we were talking
 as we drove homeward. The subject of discussion
 is forgotten but it had nothing to do with what we
 saw. We were driving down between two elongated
 hills into a sort of valley where during the
 day one could have seen many miles ahead
 down between the hills. Suddenly we thought
 it was morning (dawn) for the sky became
 almost instantly light but it didn't
 seem to make sense because we left the
 dance at around 1:30 and we hadn't been
 driving for very long. As I recall, our

WITNESS ACCOUNT (CONTINUED)

watches showed the time to be about 2:00 a.m.

By this time the sky above was like daylight except that we could see that this daylight effect was limited to a certain radius beyond which it was still dark. It didn't take much brain power for us to realize that there was a light source above our car so I stopped the car and we leaned forward and looked up through the windshield. What we saw was a circular glowing object, which had the appearance of molten metal or better yet, appeared like an electric stove element turned on "high heat" and seen in the dark.

The two of us were terrified although I tried not to show it and our only concern was what was this thing and was it going to harm us. The round object was motionless appeared to be approx. 100ft. high ~~and~~ and perhaps 40 ft. in diameter. It seemed to emit heat but made no sound. There were no visible seams or doors but it had definite shape. It stayed only about 2 minutes. Then sped off in the direction we were headed as if it were lightning. It lit up the valley as it went and we could see that it travelled many miles, (perhaps 30 - 40 miles) in about one minute.

It grew small in visual size very rapidly and disappeared in no more than a minute. Our feeling was one of relief at this point and we discussed possibilities and probabilities of what

this thing was as we drove home.
(From possible extra terrestrials to secret govt. military projects)

x-times the moon

PLEASE MAKE ON A SEPARATE SHEET A DRAWING OF THE OBSERVED PHENOMENON.

A few weeks after the sighting of April 13/80 I contacted the truck driver and we had a 30 minute telephone conversation about what we both had seen. His first name is Peter I don't remember or have no record of his last name but if you consider it important I can find out at your request.

I made a tape of the telephone conversation which you are welcome to have if you feel that it's of any use. Although I must ask that you keep it confidential because the truck driver was not informed that the telephone conversation was being taped. The truck driver not only confirms my account of the sighting but also refers to other encounters he has had in the past one of which involves a very bright disc directly above his car which disabled his engine temporarily before the disc took off. If you feel it important to know this. other witnesses' last name or if you want the tape I refer to please contact me and I will furnish both

Dear Mr. Schnare:

Thank you very much for your interesting sighting reports. Dr. Hynek will review them and they will be made a part of our permanent confidential files in Evanston.

Dr. Hynek asked me to publish the reports without giving your name and address, of course. He thought our ASSOCIATES of the Second Kind (about 800 persons, worldwide) who read this bi-monthly periodical would find them interesting and useful in their individual study of the UFO Phenomenon.

Enclosed find a complimentary copy for your reading enjoyment. You are invited to become an ASSOCIATE, if your interest would include reading current information on a regular basis. Information about joining is enclosed.

Sincerely yours,

John P. Timmerman
Asst. to Dr. Hynek
